

The service course addresses service technicians who wish to inform themselves about the service work on ORTHORA 200 in detail. The Mikrona course program 2010 provides a professional platform for service technicians to make them familiar with the service work on the treatment unit.

Participants per course: 3 – 5 participants.

Course objectives:

The participant will

- know the installation and commissioning of the treatment unit
- be able to operate/demonstrate the treatment unit
- be able to hand the treatment unit over to the customer and introduce him/her into operation and care
- know the equipment and variants
- know the technical details for service work to be performed

Course program:

- Presentation of the ORTHORA treatment unit
- Equipment overview, retrofitting
- Installation of the treatment unit
- Planning documents
- Training in operating the unit
- Settings during commissioning
- Programming in the Service mode
- Installation of the bed and backrest drive
- Electrical, pneumatic diagrams
- Individual problem solution
- Questions from the practical work
